Bengaluru, India | (+91) 8763067720 | ptkvaibhav@gmail.com

PROFESSIONAL SUMMARY

Lead Solution Advisor with 6+ years of expertise in application security, DevSecOps, and penetration testing. Leading Product Security Team for Deloitte's Health Interactive Product serving US State Government clients. Specialized in application, database, container, and infrastructure security. CISSP certification in progress (expected 2026).

WORK EXPERIENCE

DELOITTE & TOUCHE AERS INDIA PRIVATE LIMITED, Bangalore, Karnataka

Lead Solution Advisor | Jun 2025 – Present

- Lead Product Security Team for Deloitte's Health Interactive Product serving US State Government clients, managing end-to-end security operations across application, database, container, and infrastructure layers
- Engineered application security programs using shift-left methodology, embedding security controls throughout SDLC and improving security posture by 33%
- Developed AI-driven Burp Suite extension leveraging Deloitte Sidekick and Burp Montoya APIs, identifying 23 critical flaws
- Direct 14-member team in DevSecOps implementation across 6 US-based client systems, achieving 40% faster security review cycles
- Own technical hiring for Application Security and Advisor roles, conducting interviews and candidate evaluations

Advisory Solution Advisor | Jul 2023 – Jun 2025

- Implemented streamlined SAST process by deploying Fortify SSC with DEV environment integration, reducing resource billing by 15% (\$1M), review time by 40%, and false positives by 65%
- Created Application Security Standards and Secure Development checklist utilized across Cyber Security practice
- Investigated security breach in high-risk US Government application, identifying and remediating Sensitive Information Disclosure

Advisory Associate Solution Advisor | Jul 2021 – Jun 2023

- Performed manual penetration testing on US State Government applications, uncovering 5 critical vulnerabilities including SOQL Injection, Cross-Site Scripting, and Session Hijacking
- Synthesized security strategies for healthcare, engineering, and government departments for risk management and shift-left approach during RFP planning

Advisory Analyst | Jun 2019 – Jun 2021

- Conducted automated application security testing for critical Deloitte applications including deloitte.com using Fortify WebInspect and Static Code Analyzer
